Subject: Richard the story of Adam and Mieka

Wayne Mansfield again...

Over the last few weeks I have met a very unusual couple...
Adam and Mieka.

Why are they unusual???

Well, apart from being the modern couple in their early 30's, they have supported an international lifestyle by trading gold using the magic of the internet.

Lifestyle... Adam and Mieka spent a year on the Cocos Keeling Islands, doing what everyone dreams of doing... living life to the full on a tropical island. A life of surfing, fishing, snorkelling and fun.

According to Mieka, Adam had returned from a day of surfing with everything about their trading system crystal clear in his mind.

With Mieka's help, Adam set about committing this amazingly simple system to paper.

Now back in Perth, Adam further refined his system of winning on the gold market to an easily understood process and recrafted it into a great book which he has called The New Millennium Gold Rush.

The New Millennium Gold Rush book sets out how investors can, with a very modest investment, profit from the greatest change in investment markets since the great depression.

Can't wait to see what this is about: <http://tinyurl.com/6dqnx5>

Forget what you see on the TV each night, or read daily in the newspaper... it's not all doom and gloom!

Whilst you will have probably read about the upheaval in the property market, and on the Stock Market, for the astute investore, this means investors are returning to the safe haven of gold...

and with predictions of the price going to \$2,000 an oz, many will make substantial profits... if they understand how.

All commodities take their lead from gold... oil, copper, iron ore etc...

And here is an opportunity to share in the creation of wealth caused by people seeking safety.

So, can I recommend that you have a look at Adam's book... for less than \$100 you will get an insight into the way the world works and how to be part of this new gold rush.

Follow the links to <http://tinyurl.com/6dqnx5> and grab your copy before the price goes up:

that's the price of gold or the book.

All the best
