From Sylvia

**The excitement of change** is in the air, autumn arrived in our part of the world and spring heralded in the north.

**David & I returned** from presenting the Mastery program at Dwellingup with a deep satisfaction that unprecedented life change had been activated in the lives of all who attended. For me I experienced a deeper than ever DNA awareness of ancestral love and acceptance. This new depth of freedom opened a wisdom door that I previously had no calling to or awareness of.

**I'm excited** with this newness. My business logo is the butterfly a symbol of willingness to grow and change knowing that without change there would be no butterflies. In nature each season takes us to another stage in the evolution of life - I encourage and support you to allow change, let go of hurts, frustration and stagnant spaces, change your now to evolve your future.

There is a simple way to learn how to do this and when you learn that way your life will take on dimensions your mind has never imagined.

Everlasting love and rich blesSings to you, **Sylvia & David**

Evolve your future, from foetal koru to graceful frond.
